

# ICE-O-FORCE™

## Vibration and Noise Isolating Plow Blade Assembly

### Benefits of the Ice-O-Force™ Assembly

**Reduced Shock and Vibration**  
that is transmitted from the plow blade to the moldboard and plowing vehicle.

Vibration is the chief cause of many structural failures and also contributes to operator fatigue.

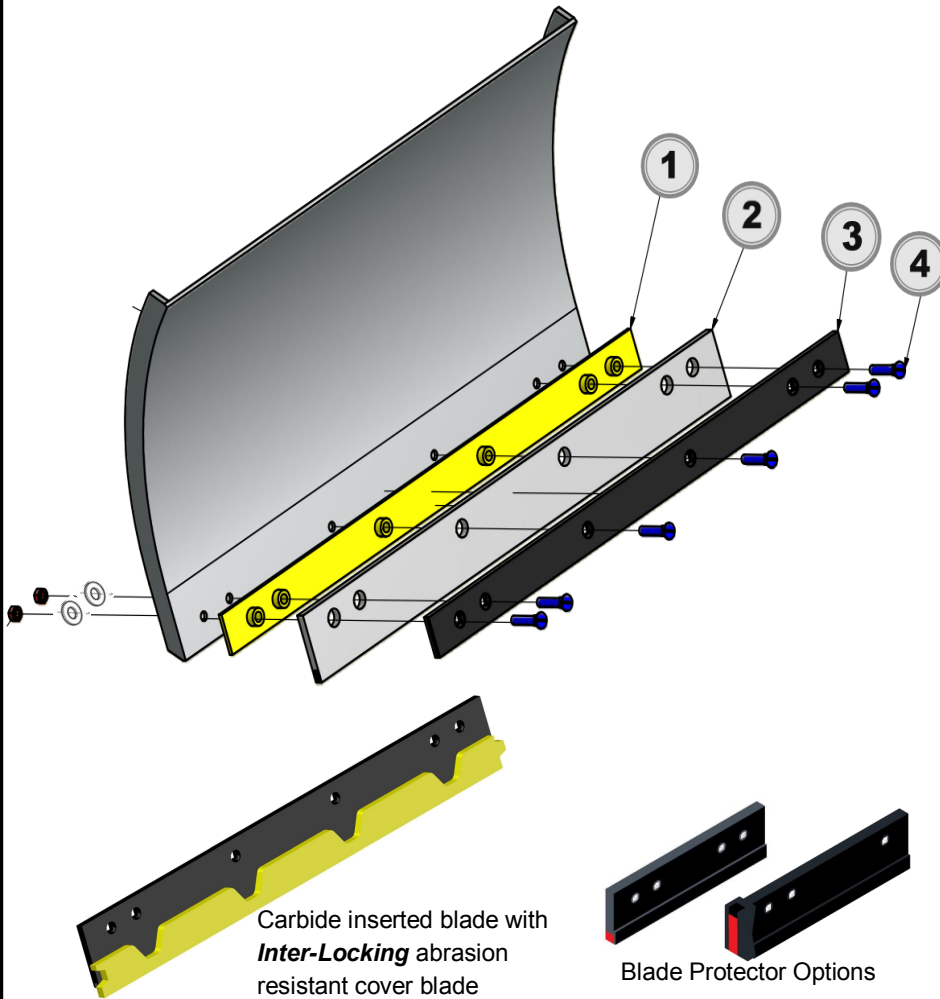

**Reduced Noise**

Noise is another cause of operator fatigue.

Our Ice-O Force™ system helps to dampen the sound produced when the plow makes contact with the road, reducing potentially harmful noise levels over significant periods of time.

**Blade Adaptable**

Works with carbide, steel & grader blades. Can extend current blade life 2-3X.

Carbide inserted blade with *Inter-Locking* abrasion resistant cover blade

Blade Protector Options

<p><b>1 Urethane Dampener</b></p> <ul style="list-style-type: none"> <li>• Reduced vibration</li> <li>• Decreased noise levels</li> </ul>	<p><b>2 Carbide Plow Blade</b></p> <ul style="list-style-type: none"> <li>• Longer wear life when compared to steel blades</li> <li>• Any blade type</li> </ul>	<p><b>3 Clamp Bar</b></p> <ul style="list-style-type: none"> <li>• Secures the assembly to the moldboard</li> </ul>	<p><b>4 Plow Bolt</b></p> <ul style="list-style-type: none"> <li>• Grade 8 plow bolt, flat washer &amp; Stover nut recommended</li> </ul>
